“Effortlessly
Keep Birds
Away”

- **Material**
- **Design**

: High-quality stainless steel or durable UV-resistant polycarbonate.

: Anti-roost spikes with a sharp yet humane design to deter birds without harming them

- **Length**
- **Spike Height**

: Available in customizable lengths to fit various ledges, rooftops, signs, and beams.

: Ranges from 4 to 6 inches, providing effective coverage against pigeons, seagulls, and other large birds

- **Installation**

: Easy to install with adhesive, screws, or ties, suitable for both temporary and permanent setups.

- **Weather Resistance** : Designed to withstand extreme weather conditions without rusting or deterioration.

- **Maintenance**

: Minimal upkeep required, making it a long-term solution for bird control.

“Every
Car
Deserves
Protection”

Secure, Durable Bird Nets for a Bird-Free Environment!

- **Material** : High-density polyethylene or UV-stabilized nylon, designed for strength and durability.
- **Net Thickness** : Heavy-duty netting to withstand impacts from falling debris, dust, and small objects.
- **Mesh Size** : Optimal mesh size to block debris while allowing airflow and visibility, ensuring adequate ventilation in parking areas.
- **Weather Resistance** : Built to withstand UV rays, rain, and wind, maintaining durability in both indoor and outdoor parking areas.
- **Color Options** : Available in standard colors like black, white, and green to complement various building aesthetics.
- **Installation** : Comes with reinforced edges and installation accessories like hooks, cables, and anchors for secure attachment.
- **Maintenance** : Minimal maintenance required, with easy cleaning to keep the area looking neat.

“Built for
Performance”

Secure, Durable Sports Nets for Every Game!

- **Material:** High-strength, UV-stabilized nylon or polypropylene for maximum durability.
- **Net Thickness:** Available in varying thicknesses to suit different sports, from lightweight nets for badminton to heavy-duty nets for soccer and cricket
- **Mesh Size:** Customizable mesh sizes, providing suitable containment for specific sports (e.g., 2-inch mesh for tennis, 4-inch for soccer)
- **Weather Resistance:** Designed to withstand sun, rain, and wind exposure, ensuring long-lasting use both indoors and outdoors
- **Application:** Suitable for sports fields, courts, indoor facilities, and outdoor play areas
- **Color Options:** Available in classic colors like white, black, or green, allowing for professional aesthetics
- **Installation:** Easy to install with reinforced edges and grommets for secure attachment to poles or frames.
- **Safety:** Engineered to reduce injury risk by providing controlled containment and ball rebound

ADVANTAGES OF INVISIBLE GRILLS

MAXIMUM SAFETY

CLEAR PANORAMIC VIEWS

FIRE SAFETY

RUST & PAINT FREE

FAST & FLEXIBLE

NO MAINTENANCE

ANTI-BIRD NET

LOAD CAPACITY UPTO 300 KG

HIGH TENSILE STRENGTH

Aluminium Alloy

Section for Invisible Grills is of T6 - 6360 Grade. With Exterior Grade Powder Coating of 100 microns. Inside Rollers are made up of Nylon Material which is Water proof & weather proof which make our product Durable and long lasting. We even use Stainless steel Hex Bolts to fix Nylon rollers which again is non rustic product.

Wire Rope:

Stainless Steel 316 Grade High Tensile Wire Rope with 7 x 7 Construction for Strength. Our Wire ropes are Nylon coated for smooth surface and enhance the look of the Grills.

Clips / Stiffeners:

Clips / Stiffeners are designed for binding Vertical wire ropes with Horizontal. By using this Clips / Stiffeners it give more Strength and Stability to this Grills.

Stainless steel Anchor Bolts:

Our Anchor Bolts are made up of Stainless steel 304 Grade Material. It is designed with Double Threaded Studs for more Strength and Stability. We use Plugs of Nylon material for the best and long lasting result. It is non rustic Product.

Eye Screw Pins:

Eye Screw Pins are made up of Stainless Steel 304 Grade Material. It is used for Tying Horizon lines from one end to another.

Self Drilling Screws:

This Screws are made up of Stainless steel material. It is used for Screwing Cap Sections. This Screws saves a lot of time and efforts, the name it self says that it's self drilling screw. One should not need to drill first with drill bit.

Ferrule:

This looks small in size but it place a very crucial roll, as this Ferrule's are used lock the Wire ropes.

Invisible Grills

Our Happy Clients

Why To Choose Us

Unlike traditional grilles, invisible grilles allow you to have an unobstructed view, which is something that every homeowner wishes for while gazing out the window.

We even have invisible window grilles that give optimum security without detracting from the visual value and style of your space
